Excellence in Teaching, 2000-2001.**

SELECTED STUDENT COMMENTS

2011-2018 (National University of Singapore)

“Prof David uses the most fundamental ideas to educate us. He encourages first principle thinking”

“By far the best teacher I have had since the start of my MBA. His mastery of the subject matter is exquisite, yet he never speaks over students. He is able to teach complicated topics in a way that is easily digestible regardless of ones previous knowledge or background. He is humble and kind, and does a masterful job of getting the class involved. He has made me change my desired occupation after this MBA.”

“He is a master in structuring the flow of the concepts in a way that it is very easy to follow what he teaches, despite the subject being a hard-cord finance course. Further, he has extensive knowledge in the subject matter and is able to make the students think how concepts work practically.”

“He is the only professor that grades all the homework himself and then works with the students on the areas that he sees we still have weaknesses.”

“Excellent teaching technique, great interaction with the class, and interesting syllabus”

“Practical examples, interesting cases, excellent interaction with the class”

“Super inspiring prof!”

“Make a complex subject easy. Ability to generate interest of students without any background of the case”

“The best professor I have during my MBA”

“It is really cool and helpful to expose to ‘learning by doing’. I have to say I felt overwhelming in very beginning, using more than 20 hours per week to do the homework. But it turn out to be a happy experience.”

“great speaker, a man with great humor, very patient”

“Brilliant way of delivering concepts in class. Encourage students to actually do the case and the discuss concepts actually helps to learn and cement the core concepts once case study is discussed. The suspense of which case study would be collected or not was evil genius. This ensured that students were prepared to participate in the case study”

“Excellent ability to generate class discussion and go beyond basic technical skills. Encourages taking unique approaches during valuations and take a stance on a position.”

“Very experienced and inspirational when delivering the content in the class. Encourage class participation by raising creative questions and being open to different opinions. Provides insightful comments and feedbacks.”

“He is the best professor ever, not one of the, but just the BEST!”

“Step-by-step explanations ensure that all can follow. A lot of practical insights and rules of thumbs that are easier to remember than complicated concepts. Making a very dry subject funny and entertaining. Making students work extremely hard!”

“He is passionate about what he teaches and is concerned with ensuring that students actually learn from his classes instead of simply doing well”

“Very passionate to teach and ensure that we learn and this shows during class where his enthusiasm rubs off to the students.”

“Fantastic teacher who teaches financial concepts in a simple way that allows people to easily understand the topic”

“He brings to the class a myriad of experience and knowledge and shares it with us in interesting manner”

“Fun to be in class, provokes thinking, gives everyone a change to talk. Natural in class and knows the content well”

“Able to explain issues clearly, funny, and passionate about the subject”

“He is brilliant! Very friendly and engaging. ... I have truly learned a lot from Prof Reeb!”

“Very impressive/effective layouts of such a difficult module (especially those without finance background). The most humorous, passionate lecture I have seen in NUS b-school! Keep it up!”

“Engaging. Clear. Presents difficult concepts clearly.”

Master Level - Student’s Nominations For Best Teaching

“By far, the best teacher and class I have had in my ENTIRE MBA experience”

“Hands-down the best teacher I have encountered at NUS so far.”

“The way ‘learning by doing’ is really impressive and helpful. The class discussion is quite open. I learned how to do the MA& and how to grab information. David makes the investment banking no more mysterious.”

“Professor Reeb is not only a teacher, he is also a great speaker”

“Made Finance lively! Very interactive and thus challenging course! Best finance course I’ve ever had!”

“So much fun in what could be a very technical boring class. Yet many practical insights that are not commonly found in textbooks”

“The best professor I have during my MBA. Commands attention and ensures the entirety of class is based around the discussion of a case. Encourages problem solving and DIY approach to learning. Overall he is a highly effective professor.”

“Excellent motivation throughout the semester. Never lost interest once in the subject. The valuations were all as available on damodaran.com but the techniques to understand these valuations were unique and always informational.”

2003-2011 (TEMPLE UNIVERSITY)

- “I went from thinking this is a boring topic to really being interested in it”
- “The instructor’s incredible ability to translate dry financial jargon in a way that students could understand”
